

## SUCCESS STORY ON STREAM BANK EROSION CONTROL

District: Champhai

Name of FIG: Bethel WRC FIG-2

Major Activity: Support for Wetland Agriculture

Detail Activity: Stream Bank Erosion Control

Stream Bank Erosion Control was constructed by Bethel WRC FIG-2 at Keilungliah where there are around 8 families who have paddy field nearby. This area has been destroyed by flood almost every year during monsoon and therefore production of rice could not be as expected. After Stream Bank Erosion Control was constructed, it was reported that the production of rice last year was increased upto 500/600 'Tin'.
