

# SUCCESS STORY OF FARMER ON WATER DELIVERY SYSTEM AT CHEKAWN PROFILE

**Name of the activity :** Water Delivery System- Pipe

**Village:** Chekawn

**Name of beneficiary** Mr. Lalbiaksiamia

**Name of FIG:** Settled agriculture & orchard FIG

**No. of unit allotted:** 1 unit (0.5 ha)

**INTRODUCTION:** Mr. Lalbiaksiamia is a farmer from Chekawn village and a member of settled agriculture & orchard FIG. His family completely rely on settled agriculture. He is having an area of land around 3.5 ha, where there is availability of good water source. The main problem is lack of water delivery system which effect crop production.

**FOCUS INTERVENTION:** From FOCUS project he received 200 meter of water pipe, with this he can now take as much as water he needed from the river. He even started integrated farming in his land by rearing pig, fish pond and cultivating rabi crops. This greatly increase his family income earning around Rs 30,000 (Thirty thousand) in a month. He is grateful to FOCUS project and said that this is an investment for his family future.
